Subject: Hi!

Hi,

How are you? I'm fine, busy with school and sport as usual!

I'm writing to you because my results in some subjects this year need improvement and I will have to study during July. So I will not be able to meet you in July, as we did last year. How about your results? Did you get good marks? Which subject did you like the most? Which one was difficult for you? Is there any subject that was boring in your course?

As I have decided to continue studying and have been accepted to study Architecture, I will be doing some work on Math and Physics. I will also do some volunteer work in a building company administration department.

How about you? Have you already decided what you will be doing next year? Will you start a university degree?

It would be great if we could meet this summer. We must keep in touch more!

Love,
Jane
